DELIVERED VIA EMAIL

Garrett Ripa, Field Office Director
Miami Field Office, Immigration and Customs Enforcement
U.S. Department of Homeland Security
865 SW 78th Avenue, Suite 101
Plantation, FL 33324
Garrett.j.ripa@ice.dhs.gov

Dear Field Office Director Ripa,

The undersigned local and national organizations write to you regarding the Baker County Detention Center (Baker). Many of us wrote to the Biden Administration last month calling for the termination of the Intergovernmental Service Agreement (IGSA) between the U.S. Immigration and Customs Enforcement (ICE) and the Baker County Sheriff's Office (BCSO) and to close this facility. Unfortunately, the dangerous conditions at Baker continue and people are in harm's way. We would like to follow up on our last letter, share additional urgent developments, and reiterate the need and our request to immediately terminate the IGSA between ICE and Baker County Sheriff's Office.

The Baker County Sheriff's Office is a grossly unfit contracting partner and should not be responsible for the care of immigrants in civil detention. First, they continue to be in active litigation for violating the U.S. Constitution and impeding detained individuals' access to counsel. Second, Baker County Sheriff's office has reacted in a hostile manner to the Baker County Commissioners, the Baker County Corrections Management Corporation (BCCMC), and we believe the Department of Homeland Security (DHS), over issues related to governing the facility. It has become clear that they may see themselves as having more discretion than is allowable in how they operate Baker, including how they interact with government partners and adhere to applicable laws. In a recent BCCMC meeting, the Sheriff noted that he will run the Sheriff's office by "Florida statute," adding "I don't care what your agreements say." In follow up, a representative from the Sheriff's office added "we have allowed ourselves to be in a position to let people dictate how we operate. He is required to operate by Florida statute. Nobody else can dictate how he operates. He is sovereign, he is the Sheriff. We have allowed people to step over that line and 2023 is the end of that." The Baker County Sheriff's Office—your contracting partner and the entity charged with caring for people at Baker—is a liability for Baker County and ICE.

There continues to be extensive evidence that the conditions at Baker are atrocious. Individual attorneys, advocacy organizations, the media, and others have become aware of the problems at Baker. DHS has confirmed some of these conditions themselves. Last month, for example, DHS Office of Civil Rights and Civil Liberties confirmed that Prison Rape Elimination Act (PREA) violations did occur in the facility. Specifically, multiple women at the facility were watched while they changed, showered, and used the bathroom. We understand that CRCL is actively

investigating the mountain of complaints against the facility. Despite this confirmation and the investigations, the conditions do not improve and people continue to be in danger.

We have heard many horrific stories from people at Baker, but we would like to highlight one recent example to illustrate the danger. This past December, there was one individual at Baker with high blood pressure that after days of requesting their blood pressure medication and being denied without reason or justification, collapsed, suffered serious injury, required emergency hospitalization, and now requires a wheelchair. Two months later, this person fell again after being told they had “been in a wheelchair for too long,” and that there would be no further follow-up or physical therapy after the second accident. While in the medical unit, they requested assistance to get to the bathroom to no avail and were forced to urinate on themselves. The next day, this person was told they were unable to shower due to the showers being broken and had no other choice but to wash themselves while sitting on the toilet. While attempting to bathe, an officer looked on, violating the person’s privacy and humanity. The person reported these issues, begged again for a shower, and inquired as to how they could lodge a complaint about their mistreatment. The BCSO staff told them the only way to submit a complaint was through the kiosk, which this individual is unable to use and does not understand how to access the kiosk to submit a complaint and request assistance. The next day, this person was told to pack their things at 5:00 a.m. and without being told any information, was transferred to two other facilities in the State and eventually taken to the airport in Miami to be transferred to Louisiana. The entire time they were in transit, this individual notified the officers that they required blood pressure medication and requested to call their family or lawyer multiple times. This individual was again denied their medication and was not allowed to contact family or legal counsel. Upon arriving at the airport, this individual lost consciousness and was finally deemed unfit to travel by a nurse. Officers removed them from the plane and this person was transported back to Baker and where they remain to this day.

This story is just one example of what people go through everyday in Baker. It is never just one or two isolated incidents but weeks or months of repeated indignity, abuse, and sometimes life-threatening neglect. BCSO also has a troubling and dangerous pattern of retaliating against immigrants who speak out about their mistreatment at Baker. These retaliatory patterns are especially concerning as we have reason to believe that this person was transferred because they sought to report what happened to them at Baker, which goes beyond what we detail here.

The number of complaints related to this facility has grown to almost 200 and this is only what has been reported and verified via the Florida Detention Database. The leading issues concern patterns of medical neglect, unsanitary conditions, retaliation, and the inability to access legal counsel. This one recent horrific story illustrates the array of aforementioned conditions issues at Baker and how people’s tragic experiences often include an overlap of systemic failures with very human consequences.

This is why transferring people to other facilities in the immigrant detention system is not a solution and still exposes people to suffering and harm. We recommend the release of all individuals suffering at Baker while closure is considered, with priority to all individuals detained over 180 days, those who are medically vulnerable, and those who have been targeted or suffered retaliation after bravely going public with their experience at Baker.

We are not alone in our horror over the conditions at Baker and request to close Baker. Over 1,000 people feel the same and have sent messages directly to ICE in support of the people in harm's way at Baker. They join us in calling on ICE to terminate its contract with the Baker County Sheriff's Office and vehemently oppose the abuse people at Baker are experiencing everyday ICE refrains from taking this action. Their names are attached to this letter.

We thank you for your review of our letter and consideration of this request. If you have any questions regarding this letter or would like to discuss its contents further, please contact Silvana Caldera at scaldera@aclufl.org or Isabel Ruano at isabel@immigrantactionalliance.org.
